INTELLIGENT HMI SOLUTIONS

- MEDICAL IMAGING
- PATIENT MONITORING
- CRITICAL CARE

MEDICAL APPLICATIONS WHERE OUR HMI TECHNOLOGIES ARE USED

Medical

Human Machine Interface (HMI) solutions and display technologies for medical and healthcare applications.

PRODUCT DEVELOPMENT SOLUTIONS

- Early design in development
- Program management
- Mechanical and electrical engineering
- Rapid prototyping
- Verification and validation
- Product certification
- Reliability testing (8hr-cycle testing, Salt, evaluation)
- Safety testing (UL, IEC, CE and VCCI)
- Environmental testing (Shock, Vibration, Drop, Temperature, Humidity and soot ingress)

CUSTOMISED HMI SOLUTIONS FOR MEDICAL APPLICATIONS

We design and manufacture customised HMI solutions for medical and healthcare applications. The HMI system is a sub-assembly and will typically include the following integrated components:

- Display (monochrome, colour, passive (indirect) or indirect display)
- Protected transparent (PCAT) or inorganic touchscreens (curved, users range from 17" to 30", multi-touch, gesture recognition, glove-operated with force and tactile gloves)
- Sensor (skin and chemical stimuli)
- Touch controller module
- Cover (medical glass (thickness up to 10mm), flat, polycarbonate plate)
- Lamination (optical and pressure bonding)
- Front bezel with peripheral controls, including mechanical buttons, tactile switches, encoders, slide switches & flap buttons
- Base housing
- Power, wireless, Macintosh connectivity

OUR ASSEMBLIES INCORPORATE

- Monochrome solutions (active non tactile, using 16:9, 4:3 and 5:4)
- Mechanical switches
- Capacitive switches and keyboards
- Complete control panel solutions incorporating status, presets, trackballs and touchpads

Workforce Development Programme

October 2018 – August 2019

Be part of our story
HARTLEPOOL BOROUGH COUNCIL

Introduction for Hartlepool Borough Council employees

Delegates with an overview of what it means to be a Hartlepool Council employee, our values and how we can work together to achieve our business objectives.

On completion of the session participants will:

- Understand the governance arrangements in which the Council operates, including the Council Plan, our values, our Code of Conduct and our role and responsibilities.
- Understand the Council's values and objectives, understand how the process works, and the concept of internal and external customers, and how we can meet the customer while demonstrating respect to each other.
- Understand the role of the Trade Unions in Local Government.

Dates: 18 December 2018 / 30 January 2019

Time: 9.30am - 12.30pm

Venue: The Centre for Independent Living (CIL)

Delivered by: Adult Education

Time: 9.30am - 12.30pm / 1.30pm - 4.30pm / 9.30am - 12.30pm

Venue: The Centre for Independent Living (CIL)

Delivered by: Adult Education

Time: 9.30am - 12.30pm / 1.30pm - 4.30pm / 9.30am - 12.30pm

Venue: The Centre for Independent Living (CIL)

Delivered by: Adult Education

Time: 9.30am - 12.30pm / 1.30pm - 4.30pm / 9.30am - 12.30pm

Venue: The Centre for Independent Living (CIL)

Delivered by: Adult Education

Time: 9.30am - 12.30pm / 1.30pm - 4.30pm / 9.30am - 12.30pm

Venue: The Centre for Independent Living (CIL)

Delivered by: Adult Education

Time: 9.30am - 12.30pm / 1.30pm - 4.30pm / 9.30am - 12.30pm

Venue: The Centre for Independent Living (CIL)

Time management

This session will give delegates the tools and techniques required to effectively prioritise workload, increasing productivity as a result.

- On completion of the session participants will:
- Recognise time as a resource to be managed.
 - Have identified and focused on key areas of responsibility.
 - Have established and overcome the causes of poor time management and know how to effectively prioritise their tasks and the workload.
 - Have increased personal productivity to achieve a greater work-life balance.

Duration: 2 hours
Dates: 18 December 2018 / 21 March 2019 / 17 July 2019
Delivered by: Adult Education
Time: 9.30am - 12.30pm / 1.30pm - 4.30pm / 9.30am - 12.30pm
Venue: The Centre for Independent Living (CIL)

Presentation skills

This session is intended to transform your presentation skills, adding greater control and confidence.

- On completion of the session participants will:
- Plan and prepare presentations more effectively.
 - Build in several techniques for keeping audience interest.
 - Use voice, body language and room layout to best effect.
 - Look and feel more confident when presenting.
 - Use a variety of visual aids, including recent technology.
 - Interact with their audience, taking questions and feedback.
 - Handle challenging questions and audience behaviours.

Duration: 3 hours
Dates: 13 November 2018 / 11 February 2019 / 21 June 2019
Delivered by: Adult Education
Time: 9.30am - 12.30pm / 1.30pm - 4.30pm / 9.30am - 12.30pm
Venue: The Centre for Independent Living (CIL)

OBA SCHOOL

Digital Tutoring Service Solutions for GCSE & A-level Schools

Challenges Experienced by Schools

- Student absence due to various reasons, or a sudden absence of a teacher. In such circumstances, schools strive to keep the timetable of their learning deliverables unaffected, but that comes on the expense of additional cost and pressure.
- The time limitation to deliver extensive curriculum within the academic year, especially with the recent pandemic threat and temporary closure if possible.
- Performance gap between students due to the variation in the comprehension ability. Some of the Special Educational Needs (SEN) students can find it hard to maintain focus for long periods during a normal class, or could be shy to ask, or prefer to work on their own pace.
- Although many students excel in understanding science topics, some perform poorly when text with science problems that involve mathematics.
- Many students struggle with applied mathematics including A-level Statistics and Mechanics.
- The revision period prior to exams tends to be short for students and overwhelming to teachers.
- Subscribing to multiple tutoring and resource services can be overwhelming and costly.
- Many of the learning resources services have a very rigid subscription model. One size does not fit all.

We listen to you and your student's comments.

Our Solutions

- We have one of the largest GCSE and A-level libraries of tutorial videos! Over 30,000 our curriculum-based tutorials that cover all core subject topics irrespective of any specific examination-board and organized in course format. This can be a great backup to overcome unforeseen circumstances.
- The design of our digital tutoring courses promotes independent learning. Students can study from our materials by themselves at their own pace and watch over and over until they grasp the new and difficult lessons. This model of independent learning boosts the performance of less able students, and helps to reduce any gaps in learning performance between students.
- We have created dedicated preparation chapters for math use in science including Maths for Biology, Maths for Chemistry and Maths for Physics for GCSE and A-level. These have been modified inline with the examination board requirements for each science subject.
- We have developed one of the most comprehensive A-level Statistics and Mechanics tutoring resources which can ease the understanding of difficult concepts and make the two subjects enjoyable.
- Having our tutorials in the form of videos that are organized in a topic format makes it possible to revise for exams in a much shorter period, thus reducing student stress over the exam preparation period.
- Our tutoring service covers over 16 GCSE and A-level subjects. Our subscription fees are incredibly affordable and offer you fantastic value for money. With prices costing less than £9 per student, there's no limit to the excellent results your school can achieve.
- Our tutoring service will adapt to your needs, just like a real teacher. If your students find a particular area difficult, we will design more tutorials and make them available as soon as possible to meet your students' needs. Our tutorials and digital resources will continue expanding throughout your subscription too.

WHAT OUR CLIENTS SAY

“I cannot thank Reactive Design enough for all of the help, guidance, expertise and support given for the new brand and website development. It has helped transform our business and we look forward to continuing to work with you in the future!”

DAVID GOODINGS, MANAGING DIRECTOR
REDROSE NUTRACEUTICAL LTD

“We engaged Reactive Design to undertake a full re-imagining of our website to include the introduction of an online application and purchasing functionality. We were impressed with the professional approach adopted and the way the team at Reactive handled the development. We are extremely happy with the completed website and the post-launch support has also been first rate.”

KEVAN HOLMES, GENERAL MANAGER
JIB-PMES

“The transformation of our website has been incredible and we are absolutely delighted with all elements of the service that we have received from Reactive Design. They offer a highly personalised service and the quality is of the highest possible standard. From the beginning of this process, the team at Reactive asked us what we wanted and delivered comprehensively. I cannot speak highly enough of the Reactive team and wholeheartedly recommend that anyone looking to revamp their website speaks to the team, who will provide you with a first class service.”

MARTYN GORDON, HEADTEACHER
HORIZON SCHOOL, HARTLEPOOL

“I contacted Reactive Design following a recommendation from Walkers Opticians. I was looking to revamp our website & the Reactive team were extremely helpful & easy to work with. The customer service & prompt designs were exemplary. I cannot speak highly enough of the service we received.”

PETER DAND, DIRECTOR
NORWOOD PERRIN OPTICIANS

“We’ve worked with Reactive Design for a long time now. Over the course of this time they are always really helpful. Whether that be with initial design ideas, sorting all our printed literature for us, or creating and updating our websites, even at short notice! Reactive design always go above and beyond on every project and deliver the goods every time. In all honesty working with them couldn’t be easier, it’s like having an extended marketing team at the end of the phone. Without them my job would be much harder and it’s testament to their knowledge, experience and cheeky banter that makes working with them such good fun.”

LIBBY ABBOTTS, GROUP DIGITAL MARKETING MANAGER

AVENTUM GROUP

“MSP would like to say a massive, massive thank you to Andy and his team at Reactive who have provided invaluable support and guidance in the construction of our brilliant new website!”

ANDY JONES, MANAGING PARTNER
